## METEORA MONASTERIES in Greece

In the northwest corner of Thessaly in Greece, in the Pindos mountains, just beyond the town of Kalambaka rise sandstone peaks where monks settled in around the 11th century. The first ones who arrived in the area to use the cliffs of Meteora for spiritual reasons were Orthodox Christian hermit-monks. They came to this place between the 9th and the 10th century to find quiet and to isolate themselves in the many

Strasbourg, the capital of the Alsace region, located in the North-east of France, is the 7th most populated city in France with a population of 300,000. Strasbourg sits near the German border next to the Rhine river making it a city of great historical importance, where French and German cultures are intertwined. You can get acquainted with different cultures in Strasbourg, host to many important events and states throughout history, which was included in the World Heritage List of UNESCO in 1988

There are hundreds of islands in the Mediterranean Sea, but the landmasses are shared between only nine countries. Most of the islands belong to Greece and Croatia, while Italy and Spain also have a sizable number. France, meanwhile, has a small handful, with the most notable French island being Corsica, the sea's fourth-largest island. It is also one of 18 French regions, with Ajaccio as its capital. Although Corsica has two administrative departments, it is a single territory collectivity and is more autonomous than the other French regional collectivities.

It is widely known that every teenager loves sports, and they can learn a lot from them. While doing them, they develop important soft skills and life values which will be useful throughout their lives. These are also the aims of this eTwinning project: to learn about the partner countries' sports culture and traditions (Olympic and Paralympic games); to develop teamwork, communication, and creativity, among many other soft skills; and to promote solidarity, empathy, cultural awareness as life values.&nbsp;

**Working Process / Collaboration**

## Project plan

All coordinators met together the first time during the summer 2022 and September 2022 in several online meetings, where we planned our common project for the school year 2022/23.

We planned around **14 common activities** and two activities should be done each month. We started our transnational work with the students in October 2022 and finished it in June 2023.

### **Some of the main activities we have planned and successfully managed:**

- Transnational research and exchange informations about Olympic Games
- Common Online Meetings between all school partners with students and teachers.
- Transnational products (videos) where we practicing Olympic Sport Games.
- Produced Online Games in Scratch and used many digital tools in our tasks.
- Exchange information about our countries - EU Citizenship
